Dear IRAS Colleagues,

As I lay down office as Financial Commissioner (Railways), I wish to communicate with you across the various zones and production units.

As we grow in the Organisation we consciously become aware of the immense responsibilities which the service thrusts on us with repeated vigour. The current challenges to make railways the Premier Public Transporter and a financially vibrant Organisation calls for financial nimbleness and strategies to drive growth.

The Railways have embarked on a committed path of Improved Service Delivery and Financial Sustainability with defined time frames. Your role in this effort is critical. My interaction over the years with our Officers and Staff gives me the faith that we in the IRAS have the required competence, commitment and energy to reach these goals. Honing Your Professional skills, Acquiring the required Knowledge Base, Striving for Excellence and Nurturing our Juniors should be the focus of your endeavours.

The time spent with all of you in the service has been Professionally very rewarding and memorable with various milestones having been achieved; and I take back with me fond memories of these interactions, and with the confidence that the IRAS will be in the vanguard of the growth trajectory of Indian Railways.

My Best Wishes to You All and Your Families in the years to come.
